CONDITION OF THE MARKETS Wheat Fluctuates Frequently and the

General Feeling Is Somewhat Easier.

Activity in Corn Results in Establishing a Lower Range of Prices-Oats Lower-Provisions Irregular on a Fair Business.

MONEY, BONDS AND STOCKS.

An Increase of Activity to New York, the Improvement Being Confined to a Few Stocks. NEW YORK, Sept. 26.-Money on call was pasy at 14 @24 per cent., the last loan being made at 2, closing offered at 2 per cent.

Prime mercantile paper, 51 @ 71 per cent. Sterling exchange was quiet but steady at \$4.837 for sixty-day bills, and \$4.877 for demand. The total sales of stocks to-day were 256,428 shares, including the following: Delaware, Lackawanna & Western, 18,730; Lake Shore, 4.051; Louisville & Nashville, 11,825; Michigan Central, 3,520; Northwestern, 6,088; Oregon Transcontinental, 23,650; Reading, 23,000; St. Paul, 17,330; Union Pacific, 7,160; Western Un-

ion, 7,925, The stock market was more active to-day, as well as decidedly stronger, though the improvement resulting was confined principally to a few stocks which monopolized the interest taken in the speculation. There were reports of frosts in the South, which led to a better feeling on the Southern stocks, and those securities were favored in the rise, with the exception of Norfolk & Western, in which the disappointment over the rate of the dividend had a weakening effect. There was a good foreign buying, and commission-houses had a fair number of orders, which could not be said of the past few days. The advices from London that the St. Paul investigation was to be left to Mesers. Drexel, Morgan & Co., here, had a marked effect in restoring confidence, while the news of the day was generally of an encouraging character. The great feature of the day, however, was New England, which, while firm to strong, all the way out, made a sharp spurt in the last hour and scored the large advance of the day. There was no new development in the property, except that in the last hour, when the advance was made, a report was received from Boston that the company had voted to issue, as needed, 2,500 shares of preferred stock to pay for additional equipment. This was not exactly a "buil" argument on the stock, but it seemed to have no effect in restricting the upward movement. Among the inactive there were marked advances Chesapeake & Ohio certificates and the Big Four, the latter being helped by reports of an increase in the dividend rate in the near future, and the former by the prospects of better business from the union of interests with the Big Four. The opening was fairly active and strong, and under the lead of a few stocks advanced materially during the forenoon, though the movement was not steady. The list is invariably higher this evening, and New England rose 2%; Richmond & West Point preferred and East Tennessee preferred, 2 per cent. each; Northern Pacific preferred, 12; L. & N., 12; Chesapeake & Ohio first preferred, 12; Hocking Valley and Oregon Transcontinental, 13 each; Manitoba, 14, and others smaller amounts.

The railread bond market also was more active and stronger, and the dealings developed more feature than usual for some time past. The Chesapeake & Ohio currency certificates and the Texas Pacific incomes were most active and condributed \$155,000 and \$121,000, respectively, to the day's total of \$1,120,000. The first-named bonds rose 2, to 29; Jersey Central consols, 3, to 1224; Hocking Valley fives, 3, to 794; Erie funded fives, 2, to 93. There were a few declines, but they were generally for fractional amounts

Government bonds were dull and steady. State bonds were dull. Closing quotations

Eggs firm and in fair demand; Western, 17 219 c. Receipts, 4,002 packages. Pork steady and in fair demand. Cut meats firm; pickled bellies, 9½@10e; middles quiet. Lard lower and very dull; Western steam, 10.75e, nominal; October, 10.55@10.61c, closing at 10.55e asked; November, 9.55@9.61c, closing at 9.55e asked; December, 8.55@8.59c, closing, 8.55e asked; Japaner, 8.41@9.45e, closing, at 8.41c. sked; year, 8.41c asked.

January, 8.41@8.45c, closing at 8.41c Butter easy; Western dairy, 12@141c; Western creamery, 13@23c. Cheese. Western, 71@ CHICAGO, Sept. 26.-The wheat market to-

day was susceptible to rapid fluctuations, prices declining and advancing easily. On the whole, the feeling was easier, influenced no doubt, by rather free speculative offerings, but the market was in such condition that when the pressure to sell relaxed, prices quickly responded to the demand. Influences governing the market were principally local to-day. The opening was a shade weaker than closing figures yesterday, and after numerous small fluctuations became weak and prices declined to a point nearly 1 to be a selected to a point nearly 1 to be a selected to a point nearly 1 to be a selected to a point nearly 1 to be a selected to a point nearly 1 to be a selected to a selected t below the early outside range; then, with some fluctuations, recovered 13c of this decline, became easier again, and closed about 10 to lower than yesterday. Foreign markets were quoted firm, with prices tending up, but the domestic markets were all lower. Local traders no doubt sold freely during the morning, on the supposition that a reaction would set in, but when the lower prices were reached, and an effort was made to cover, the market rallied quite easily. An active trade was again witnessed in corn, the feeling developed being quite the reverse of yesterday, a lower range of prices being established. The heavy trading occurred early in the session, after which transactions were on a moderate scale, the market being less active. The market was firm early; first sales were the same to to advance over the close of yesterday, and sold up to, when offerings became heavy, it being quite apparent that a large local operator who was credited with purchasing freely yesterday, had turned seller to-day, and the market broke, declining 2c, reacted %c, and closed with Octo-ber 11-214c lower, and May &c lower than vesterday. The sharp advance of yesterday had brought in a good many "shorts," and when they had covered it left the market without any support, there being but little outside demand. Oats were influenced to some extent by the decline in corn. On the speculative market the attendance of operators was small, and, as compared with yesterday, there was less activity. Besides there being more or less deliveries, was to shrinkage in values all along the line of future deliveries. In pork a fair business was

transacted at an irregular range of prices. Oc-

tober, November and January received the

most attention. The last two named futures

fell off. Opening sales were at about the same

figures as yesterday on October and January, but 12½c lower on November, declined 7½ @15c, rallied 7½ @15c, weakened and declined 7½ @20c, and closed easy. In lard the trading was mod-

erate, but the market was steady on the near

but weaker and lower on the more deferred fut-

the demand light. The opening was steady, declined .05@.12 on the long futures, reacted .02

@.07 c, receded and alosed weak. Short-rib

sides met a moderate call, but a weak and un-

settled feeling existed. Offerings were liberal

ures. Offerings of the latter were liberal and

and prices declined .05@.10c, rallied .021@.05c. later weakened and closed quiet. The leading futures ranged as follows: Lowest, Closing. Opening. INDIANAPOLIS MARKETS. Business in All Departments Fairly Active. and Prospects Encouraging.

INDIANAPOLIS, Sept. 26. All along the street, to-day, there was a fair degree of activity, though in no department of trade was business very brisk. In dry goods there is no change, either in quotations or the general tone of the market. Trade is fairly good, and prices on all staples are firm. The sales thus far in the week are rather more than might have been expected immediately after the fair week. Groceries are steady in all staples. with some tendency to weakness in sugars and coffees, though not sufficient to induce even a shading of prices. Trade is rather quiet, though by no means dull. Iron, leather and drug dealers all report business good. with a firm tone to prices all around. Produce shows no material change in any respect. Butter is dull. There is more in sight than in any autumn for some years--much of it held stock. Besides, oleomargarine has become so important a factor in the trade that its influence is felt everywhere-even in trade where first-class butter is usually demanded. As a matter of fact, where the article is properly and carefully made it requires the knowledge and experience of an expert to determine bet ween it and gilt-edged butter; and many dealers are not too honest to palm it off upon a confiding public for No. 1 creamery-more than doubling their profit, while deceiving the unwary customer. Eggs are in good supply, at un-changed prices. Poultry is firm and unchanged. In fruits and vegetables there is nothing to specify, beyond the usual daily fluctuatious. Peaches are leaving the market, though some few consignments of very good quality are ar-riving daily. Apples are plentiful and of good quality. Grapes are in good supply, and cheap. Vegetables are plentiful, at steady prices.

There is practically nothing new in the grain market. Light receipts of wheat keep prices about steady. Corn is rather dull-the pear approach of the season for harvesting the new crop having some influence in the market. Tallow higher, strong and wanted; prime city, November, 9,66c; December, 9.78c; January, 9.79c; Hominy and starch men are pretty well stocked

up, and the inquiry for the grades used by them is limited. The shipping demand is light. Oats are about steady. The closing bids on 'Change Were as follows:

Wheat-No. 2 red..... Rejected October Corn-No. 1 white. No. 2 white..... No. 2 yellow.... No. 2 mixed.... No. 3 mixed.... No. 4 mixed..... Sound ear. Oats-No. 2 white..... No. 3 white No. 2 mixed..... Unmerchantable..... September..... October....

The Jobbing Trade.
